

CUT RENT

NOT BENEFITS

We need more affordable homes not less housing benefit. Tackle the housing crisis now!

- Housing costs are unaffordable for millions of families in UK. The solution is not to cut housing benefit but to build more affordable rented homes.
- More than 200,000 people will be at risk of homelessness because of housing benefit cuts
- Cuts in public spending will mean 65% less social rented homes built this year
- We are already looking at a shortfall of at least one million homes by 2020
- We call on our MP to oppose cuts in the affordable homes programme and fight the cuts in housing benefit.

CUT RENT NOT BENEFITS

We call on our MP to oppose the unjust cuts in housing benefit and campaign instead for more affordable housing.
