

We call on Sadiq Khan to require that regeneration takes place ONLY when there is resident support.

Councils must BALLOT their residents, ensuring everyone gets a VOTE in the future of their home.

As the Mayor promised in his manifesto, regeneration should only go ahead with majority resident support

- Do not demolish good homes
- All residents must have final say via a ballot on any regeneration/demolition plan
- Rents need to stay at council “social” rent levels
- Right of return must be contractually enforceable
- All financial and technical information about estates to be made public
