Dear Colleague,

Invitation to contribute to Council Housing Group inquiry

The Council Housing group at Parliament is holding a new inquiry on 25 February at Westminster. Our objective is to collect evidence supporting increasing allowances to 'level of need' for the management, maintenance and repair of council homes.

We intend to present our findings to Housing Minister Margaret Beckett, feed them into the national Review of Council Housing Finance and publicise the evidence to inform the public debate.

The group is inviting local authorities, tenants organisations, trade unions, housing professionals and academics to submit written evidence and/or come to Parliament on 25 February to give oral evidence and show support for our objectives.

We want to establish how much each authority needs to manage, maintain, repair and improve council homes and estates on a sustainable basis and the funding required to start building a new generation of first class council homes.

We hope that you/your organisation will agree to participate by completing our questionnaire and providing additional evidence and financial information.

Please also organise a broad delegation of tenants, trade unionists, elected Members, council officers and others from your area to come to Parliament on 25 February. Contact my office for further information and if you want to give evidence.

Members of our group have put down a new Early Day Motion (EDM 355) 'Council House Building'. We hope that you will encourage your local MP(s) to add their names in support and meet you at the inquiry on 25 February.

Yours sincerely,

A handwritten signature in black ink that reads "Austin Mitchell".
