

To: Minister of State for Housing and Planning. Brandon Lewis MP.

Scrap the Housing and Planning Bill, in particular:

1. Stop forcing councils to sell much needed social homes
2. Drop plans to charge higher rent to households with incomes over £30k (40k in London)
3. Retain secure tenancies
4. Scrap moves to make it easier to evict private renters, and reintroduce rent controls
5. Invest in social housing so that councils can build truly affordable homes
