Please support democracy by forwarding this card onto my MP and ask them to reply to the questions overleaf. Thanks.

Defend Council Housing

THE FUTURE OF COUNCIL HOUSING IS AT STAKE.
WE WANT TO KNOW WHERE EACH OF OUR COUNCILLORS STAND.

Dear Councillor, Do you agree:

- It is wrong that the government is trying to blackmail tenants to accept stock transfer, PFI or ALMOs to get repairs and improvements?
- If the government has extra money for ALMOs there is no good reason why it can't allow the council to carry out the improvements itself?
- It was wrong for Camden Council to hold elections for a Shadow Board of directors - before tenants vote on whether we want an ALMO in November?
- The council should conduct a 'fair and balanced debate' on whether tenants want an ALMO and agree to be bound by the outcome of the tenants ballot?
- Camden Council should actively campaign with tenants, trade unionists, MPs and other councils to stop this government's privatisation agenda and secure direct investment in council housing - with no strings attached?

Defend Council Housing

THE FUTURE OF COUNCIL HOUSING IS AT STAKE.
WE WANT TO KNOW WHERE CAMDEN'S MP'S STAND.

Dear Frank/Glenda, Do you agree:

- It is wrong that the government is trying to blackmail tenants to accept stock transfer, PFI or ALMOs to get repairs and improvements?
- If the government has extra money for ALMOs there is no good reason why it can't allow the council to carry out the improvements itself?
- Council housing is a cost effective way of providing decent, affordable, secure and accountable housing for existing tenants and all those who are priced out by the private market.
- ALMOs are the housing equivalent of Foundation Hospitals in the NHS which you rightly oppose.
- A united campaign involving tenants, trade unionists, MPs and councils can stop this government's privatisation agenda and secure direct investment in council housing—with no strings attached..
